

StagePort / Crest Network — System Plan

Prepared: March 28, 2026 (ET)

1) Core Concept

The Crest Network is a governed access layer for founders operating inside the StagePort system. Identity, contribution, and authority are formalized into credentialed artifacts.

Short version: Not a community. A credentialed system.

2) Crest ID System

ID format: **CRST-[YEAR]-[CLIENTCODE]-[LEVEL]** (example: CRST-2026-SYV-L2)

Required profile fields:

- Identity Layer — Name, Company, Role, Entry Date
- System Status — Tier (L1-L4), Corridor (Teach / Invest / Build), Active Phase (1/2/3)
- Contribution Ledger — Sessions completed, key outputs, decisions logged
- Authority Markers — Corridors assigned, ownership lanes, decision scope
- Financial Layer — Entry investment, investment tier, optional capital unlocked

3) Tier Architecture

- L1 Initiate — Paid entry (\$2.5K), observing and evaluating, no authority
- L2 Active Builder — Phase 2 paid (\$7.5K-\$12K), structured work starts, outputs logged
- L3 Crest Holder — Verified outputs, authority in defined lanes, visible in system
- L4 Inner Network — Institutional layer, deal access, licensing/expansion

4) Visual Crest Spec

- Shape: Shield/Crest
- Tier Colors: L1 muted gray-blue, L2 navy + gold accent, L3 gold + white, L4 black + gold
- Corridor Icons: Teach (book), Invest (upward triangle), Build (gear)
- Badge Example: CRST-2026-SYV-L2 / BUILD CORRIDOR / ACTIVE BUILDER

5) Dossier + Dashboard Integration

- Add dossier section: 'System Position Assignment' at Phase II activation
- Lily assignment: CRST-2026-SYV-L2, Tier Active Builder, Corridor Build, Status Activated
- Dashboard block: Crest ID, Tier, Corridor, Phase, Ledger Entries, 'View Crest Record' CTA

6) Public Website Copy

Headline: **A Credentialed Founder Network**

Body: The Crest Network is a governed access layer for founders building inside the StagePort system. Participation is structured, recorded, and tied to real output.

Buttons: Request Access / Begin Triage

7) Immediate To-Do List

- Build Lily crest badge (visual + PDF)
- Insert Crest assignment into Phase 2 dossier
- Update landing page section with Crest copy
- Wire payment + activation + crest assignment workflow
- Begin pipeline of first 3 Crest holders
